Application Submission

MetLife now has multiple application processes to meet your client’s needs and schedule. Keep in mind that you should be proposing a product and amount of coverage based on your client’s financial needs and not solely to qualify for a specific application process.

Traditional Underwriting

You complete the paper version of the Enterprise application with your client, who is then considered using traditional underwriting requirements to offer the most competitive premium class available based on his or her insurability. The majority of this guide discusses the requirements and underwriting considerations used as part of the traditional underwriting process.

Traditional underwriting with the paper Enterprise application is available based on the following criteria:

- Permanent plans — All ages, all face amounts
- 30-Year Guaranteed Term Plan — Ages 18 and over, all face amounts
- 10-, 15-, 20-Year Guaranteed Term Plan —
 - Ages 41 and over, all face amounts
 - Ages 18-40, face amounts \$500,001 and above

Traditional Underwriting Through Tele-Application Process

Focus your efforts on meeting your client’s insurance needs and let our call center focus on the field medical underwriting for you. Complete an Express Order Ticket/quickMet/ERF and the call center will contact your client to complete the traditional Enterprise application using an electronic signature.

Since the call center will collect complete and specific details of your client’s health history, the traditional age and amount guidelines are modified for ages up to age 69 to require a simple paramed in lieu of any full paramed exam as noted on pages 4 and 5. At ages 70 and above, a full paramed will be required and all other requirements and considerations in this guide would apply to Tele-Applications.

Traditional Underwriting through the Tele-Application process is available based on the following criteria:

- Permanent plans — All ages, all face amounts
- 30-Year Guaranteed Term Plan — Ages 18 and over, all face amounts
- 10-, 15-, 20-Year Guaranteed Term Plan —
 - Ages 41 and over, all face amounts
 - Ages 18-40, face amounts \$500,001 and above
- When the client will not be seen in person

Rapid eUnderwriting

Rapid eUnderwriting is MetLife's innovative electronic underwriting process that results in policies being issued in days instead of weeks or longer.

The regular age and amount requirements contained in this guide do not apply to Rapid eUnderwriting. Your client will not have to complete any medical exams or lab work and no Attending Physician Statements (APS) will be ordered.

Instead, your client will complete the Rapid eUnderwriting application. Our underwriting decision will be based on the detailed responses to the application and database record checks that include Medical Information Bureau (MIB), motor vehicle, public record and prescription database records.

Rapid eUnderwriting is available based on the following criteria:

- Guaranteed Level Term (GLT) in 10-, 15- or 20-year durations for ages 18 to 40 (age nearest birthday)
- Face amount — The total coverage written with MetLife in the past 12 months may not exceed \$500,000. The lifetime maximum coverage that can be underwritten through Rapid eUnderwriting is \$500,000.

In order to assure a fair and consistent approach to all individuals using Rapid eUnderwriting, requirements will be limited to the database checks noted. A Personal History Interview may be required in some cases.

Additional details or information submitted independently will not be considered. Reconsideration of the underwriting decision is not available.

Since Rapid eUnderwriting is fully automated and no blood, urine or physical measurements are collected, there are some impairments and non-medical risks that will generally result in a decline.

The following conditions or activities are not eligible for Rapid eUnderwriting: chronic kidney disease, diabetes (except gestational), hepatitis B or C, leukemia, most cancers, multiple sclerosis (MS), significant cardiac histories, systemic lupus, significant psychiatric history including bipolar disorder and recent felony/probation history.

These conditions will be considered for products and face amounts that fall outside of the Rapid eUnderwriting criteria.

NOTE: Rapid eUnderwriting is not available in FL, HI, OR or PR.

Telephone Surveys — Consumer Reports

During the application process, prepare clients to expect a Personal History Interview phone call.

Quality Assurance (QA) Customer Contact Program — A compliance program via tele-interview or mailed survey to verify certain information on the application and ensure the client fully understands the product purchased.

Personal History Interview (PHI) — At age 70 and above, a routine tele-interview will be scheduled to collect certain underwriting information for applications with face amounts of \$1,000,001 through \$5,000,000 inclusive. Based on the proposed insured's non-medical or medical risk factors, the underwriter may request a tele-interview for cause. Based on individual circumstances, the interview will be limited to the specific risk factors that require additional clarification to be appropriately considered. Where the insured is the owner, the PHI (there will be only one contact with your customer) will include required compliance questions. Where the owner is not the insured, a post-issue written QA survey will be mailed to the owner.

Investigative Consumer Report — All adult ages at amounts of \$5,000,001 or more.

Notes to Table

- Ages 0 through 14 are non-medical.
- Urine HIV testing is routinely required at ages 18 and older when the total amount in force and applied for within 12 months is \$50,001-\$99,999 in the following jurisdictions: DC, DE, FL, GA, MD, NJ, NY, PR, SC and USVI.
- If a Tele-Application is completed for proposed insureds ages 70 and below, a simple paramed will be done in lieu of a full paramed. A full paramed exam is still required at ages 71 and up.

Based on the proposed insured's medical history, additional requirements may need to be ordered beyond those listed in the table above.

Survivorship Policies — Blood and urine specimens are required for both insureds. The remaining medical requirements will be ordered on each proposed insured based on one-half the total policy amount.

All urine specimens obtained without a full blood specimen will be tested for HIV.

Types of Exams *(All examinations include a urine specimen.)*

- Simple Paramedical (SPM)** — A limited exam to collect physical measurements and blood/urine specimens.
- Full Paramedical (PM)** — A full exam collecting full health histories, blood/urine specimens, physical measurements, EKG and cognitive assessment, if needed.

General Exam Procedures

Prepare your clients for the exam by advising them of the following:

- A valid picture ID as proof of identity will need to be shown to the examiner.
- For optimum specimen results, clients should fast for 8–12 hours before their appointment if a blood specimen will be taken.

Remind clients to also have available:

- Names and addresses of any physicians who have attended them, including their primary care physicians.
- Names of any prescriptions, over-the-counter drugs and herbal remedies they are taking.

Tobacco Use Guidelines

For Elite Plus, Preferred Plus, Elite, Standard Plus, Preferred Nonsmoker and Preferred Smoker, proposed insureds must meet all other criteria. Cigars, pipes and smokeless tobacco with negative urine specimen qualify for nonsmoker rates. However, Standard Plus and Preferred Nonsmoker are the best available classes. Regardless of admission of cigarette smoking or use of tobacco or nicotine substitutes, appropriate smoker class will be assigned when urine is positive for nicotine.¹

Elite Plus, Preferred Plus or Elite (Non-Tobacco) — No tobacco (in any form) or nicotine substitute use (e.g., nicotine patch, gum, nasal spray or via electronic cigarette) within five years (60 months) of application and urinalysis negative for nicotine. Celebratory cigars (no more than four per year), with negative nicotine test, qualifies for Preferred Plus and Elite, not Elite Plus.

Standard Plus, Preferred Nonsmoker — No cigarette smoking or use of nicotine substitutes within 24 months of application and urinalysis negative for nicotine. Alternate forms of tobacco use (cigar, pipe or smokeless tobacco) currently or in the past and urinalysis negative for nicotine.

Preferred Smoker — Cigarette smoking or use of tobacco substitutes currently or within 12 months of application or a urinalysis positive for nicotine. Cigarette smoking in the past 13 to 24 months may qualify for Standard Nonsmoker.

Standard or Substandard Nonsmoker¹ — Average or impaired risk, no cigarette smoking or use of nicotine substitutes within 12 months of application. Tests negative for nicotine or no testing required.

Standard or Substandard Smoker¹ — Average or impaired risk, cigarette smoking or use of nicotine substitutes within 12 months of application or a urinalysis positive for nicotine.

1. For Juvenile Standard and Juvenile Substandard (ages 0–17), tobacco use guidelines are not applicable and premium rates make no distinction for cigarette smoking or tobacco use.

Routine Attending Physician Statement Requirements

If your client has had a checkup/physical exam within 12 to 24 months, an APS may be ordered based on the following age and amount thresholds:¹

Ages	Checkup within 12 Months	Checkup within 13-24 Months
0-14	\$500,000 and over	Not Applicable
15-50	\$1,000,001 and over	
51-60	\$500,001 and over	
61 and over	\$100,000 and over	\$100,000 and over

1. Does not apply to Rapid eUnderwriting cases.

Motor Vehicle Records (MVR)

For the following ages and amounts, driving records will be ordered routinely for all persons proposed for insurance.²

Proposed Insured	Amounts
Ages 18-35	\$100,000 and over
Ages 36 and over	\$250,000 and over

2. For Rapid eUnderwriting cases, an MVR is required for all ages and amounts.

Estate Conservation Sales	
Guidelines for determining the maximum amounts of insurance in force and applied for in all companies for proposed insured.	
The future value of the proposed insured's estate should generally be projected at a rate of 7% for a maximum number of years as follows:	
Age	Years
Up to 80	75% of life expectancy, to a maximum of 30 years
81 and over	Individual consideration

These guidelines are intended to provide a general formula to calculate suggested maximum amounts of life insurance for income replacement needs or the projection of the value of an estate to be conserved. Additional information or an explanation will be needed when projections exceed those listed above.

Dependency Guidelines

(In all cases, amounts must meet tests of suitability and affordability.)

DEPENDENT SPOUSE	
Amount of Insurance In Force and Applied for	Coverage Needed on Non-dependent Spouse
0-\$125,000	No Requirement
\$125,001 and over	Equal Amount

DEPENDENT PARENT	
Amount of Insurance In Force and Applied for	Coverage Needed on Financially Responsible Adult Son/Daughter
0-\$125,000	Equal Amount
\$125,001 and over	Twice the Amount

DEPENDENT CHILDREN		
ALL STATES OTHER THAN NEW YORK		
Amount of Insurance In Force and Applied for	Coverage Needed on Parent/Family Head	
0-\$1,000,000	Equal Amount	
\$1,000,001 and over	Individual Consideration	
In the state of Washington, the insurance amount on a dependent child cannot exceed the current household income.		
NEW YORK		
Age of Child	Amount of Insurance In Force and Applied for	Coverage Needed on Parent/Family Head
0-4½	\$50,001 and over	4 times the amount
4½-14½	\$50,001 and over	2 times the amount
> 14½	\$50,001 to \$1,000,000	Equal amount
All ages	\$50,000 or less	Equal amount
All ages	\$1,000,001 and over	Individual Consideration
Accidental death and dismemberment insurance (includes credit card insurance) should not be counted in determining whether the primary wage earner has sufficient coverage under NY law to qualify the minor for the amount of insurance requested.		

Limited amounts of coverage will be available to high school seniors (\$50,000), college students (\$100,000), and graduate students (\$250,000) even if there is no coverage In Force or applied for on the head of household. Primary wage earner would need qualifying coverage for amounts in excess of those stated above.

NOTE: In the state of Washington, the insurance amount on a dependent child cannot exceed the current household income.

Retention and Reinsurance Limits (Limits are graded by age and rating class. Other restrictions may apply.)

Retention: \$20 million all products

Automatic Binding Limit: \$60 million

For foreign residents \$15 million (“A” list countries only, not all qualify)

For professional athletes \$10 million

For aviation risks \$25 million

Jumbo limit: \$65 million

(Total amount in force and applied for with all companies)

Foreign Risks

Underwriting guidelines for handling risks presented by recent immigrants, non-immigrants, foreign residents and foreign travel present many underwriting opportunities and challenges. When underwriting the foreign risk, many factors must be considered, including:

- Length of time outside of the United States
- Economic, political and medical stability of the country of residence or visitation
- The laws of the country of residence
- Availability of reinsurance
- The laws of the United States
- The proposed insured’s ties to the United States
- The availability of medical and non-medical information
- Our ability to investigate a claim

The following pages provide information on how we will consider these various groups and risk factors. Additional restrictions may apply and consideration may be contingent on the availability of reinsurance.

Immigrants and Non-Immigrants Residing in the United States

We Will Consider	
• Permanent residents	
• Individuals who have had their permanent visa petition approved and the only outstanding item is the actual visa number <i>To verify the application status we will need the 13-digit visa application number. The number may include letters or symbols, but should not have dashes or spaces</i>	
• Individuals who have been granted asylum.	
• Temporary residents who intend to remain in the United States and have visas that are more easily changed to a long-term or permanent status	
F-1, F-2	Academic students and family members
K-1	Fiancé or fiancée of a United States citizen
M-1, M-2	Vocational student and family
N-8, N-9	Parent or child of special immigrant
V-1, V-2	Spouse or child of permanent resident
• Others may be considered on an individual basis	

Proposed insureds residing in the United States one year or more with the intent and ability to lawfully remain in the United States for at least five years may be considered for all plans and riders subject to our normal underwriting guidelines. Restrictions and/or additional underwriting requirements may be required to consider proposed insureds who have been residing in the United States for a shorter duration.

In most situations, if the visa/ID type, number and expiration date are provided and are consistent with other information in the application, additional documentation may not be necessary.

When additional documentation is necessary, depending on the immigration status indicated, any or all of the following might be requested as evidence of the visa and status:

- A copy of the passport with the visa stamp and the Arrival and Departure Record (I-94)
- The permanent resident ID card
- Correspondence from the United States Citizenship and Immigration Service (USCIS) approving the petition for a permanent visa
- A valid Employee Authorization Document (EAD) card (EAD cards are not proof of the individual's ability to remain in the United States, but are recommended by the USCIS for use as a government-issued photo ID.)

Illegal aliens will not be considered for any amount of insurance regardless of the length of residency.

Foreign Travel by United States Permanent Residents (Citizens and Non-United States Citizens with Permanent Visa ID Residing in the United States)

Your clients will be able to spend anywhere from two to 12 weeks (up to six months for “A” list countries) within a 12-month period traveling to more than 165 countries without an extra charge for the travel risk. Foreign countries are placed into four categories from low risk (“A”) to high risk (“D”).

Foreign Travel Highlights

- MetLife’s full capacity and autobind limits apply for travel up to 12 weeks for “A” list countries. Reduced limits apply for travel greater than 12 weeks for “A” countries and for any travel to “B” and “C” countries.
- Available for all products, including term

When writing the life application, list all the foreign cities and countries your clients have visited in the past 24 months and the cities and countries they plan to visit in the next 24 months. Because of our autobind Foreign Travel agreements with our reinsurers, it is important that you provide detailed information of your clients’ past foreign travel and future plans for foreign travel — unless the version of the state-specific application does not ask for past or future travel. The duration of travel should be noted in weeks.

Travel for longer periods of time may preclude Preferred classes and/or require a flat extra premium charge for the travel risk or may be subject to the availability of facultative reinsurance.¹

In assessing a travel risk, we are primarily concerned with anticipated future travel. Information provided on an application for past travel is viewed for significant ties to the country visited or history of frequent travel to determine the likelihood of future travel to the same countries.

The complete list of “A,” “B” and “C” list countries and the rules governing travel to them can be found in The Life Underwriting Guide, available on the MetLife website for your distribution channel.

Travel Exclusion Rider

The proposed insured may request this rider in lieu of an Adverse Underwriting Decision. The Travel Exclusion Rider will not pay a death benefit if the insured dies in one of the countries listed on the application and the rider page. If the individual frequently travels to the country to be excluded, it may not be in his or her best interest to limit the death benefit with an exclusion rider. The Travel Exclusion Rider is available in 24 jurisdictions (listed in The Life Underwriting Guide) for all Enterprise products.

1. For residents of Florida, except for travel to Afghanistan or Iraq, and for any foreign travel for residents of Georgia, no adverse underwriting action is taken based on the resident proposed insured’s past or future lawful foreign travel. For residents of Illinois, Maryland and New York, no adverse underwriting action is taken based on the resident proposed insured’s past lawful foreign travel.

Application Requirements

- All stages of the client acquisition process, initial contact, solicitation, application and completion of requirements must be completed in the United States.
- The Policy State will be based on the United States mailing address of the owner, if available. Otherwise, the Policy State will be the state where the application was completed and signed.
- A cover letter from the representative must accompany the application and provide a profile of the client so Life New Business can understand the reason for applying for a United States policy. The letter should include:
 - An explanation of how and where the insurance was solicited, the purpose of the insurance, the circumstances under which the application was taken and an explanation of how the amount of insurance was determined.
 - The name, address and telephone number of the business/company owned in the United States.
 - Addresses of all properties owned in the United States.
 - How often the applicant visits the United States and for what purpose.
 - The name, address and telephone number of at least one business reference in the United States (e.g., accountant, banker, attorney).
 - The name, address and telephone number of at least one reference in the country of residence who can verify the financial statements made in the application to justify the requested insurance amount.
 - Name of U.S. banking institution and account number.
- Only fully underwritten applications will be accepted. Simplified Issue, External Term Conversion, Tele-Underwriting, quickMet, Tele-Application and Rapid eUnderwritten applications will not be accepted.
- Minimal requirements include a paramedical exam, blood and urine, Personal History Interview or Investigative Consumer Report.
- Hazardous occupations may preclude us from being able to offer any coverage.
- Clients must meet minimum U.S. assets amount for a specified length of time. These minimums are based on face amounts and can be found in the Life Underwriting Guide.

Underwriting Programs

(Contact your Life New Business Underwriting Unit for additional information)

All MetLife companies term policies are eligible for conversion to any approved enterprise permanent plan (excluding Private Placement, Premium Financing and COLI products) without evidence of insurability. For additional information, you may review the term insurance section on your field portal (Products > Life Insurance >Term).

External Term Conversions — Clients with a term policy from an approved company¹ may convert to a permanent plan of insurance, up to \$1 million on a guaranteed issue basis, without evidence of insurability. (Not available to residents of New York. Product restrictions apply.)

MetEdge — MetEdge is a facultative reinsurance program designed to get you the best possible offer for your clients rated Table B or C for one or two minor impairments (some non-medical risks may also qualify) for a maximum coverage of \$10 million at ages 18 to 70, (maximum amounts are aggregate in force and applied for). MetEdge is available for all individual life products, including Survivorship. Eligible cases are automatically sent to our participating reinsurer — you don't need to request this service. If our offer can't be improved by our reinsurer, our offer remains available. (Details of the MetEdge Program can be found in The Life Underwriting Guide.)

Policy State and Application Forms

The application and policy state are generally based on the state of residence of the policy owner. This is the default policy issue state. If the owner and insured reside in different states and the owner was incidental to the purchase of the policy, an alternate state may be used.

1. For a list of approved companies, see the Life Underwriting Guide on your producer portal.

Talk with your underwriter before submitting an application with an alternate state. You must be licensed and appointed in the state in which the application is signed and the risk-resident state, if different. (Risk-resident jurisdictions are listed in The Life Underwriting Guide.)

For new business and all conversions	The application is based on the owner's current residence state.
For changes to existing inforce policy	The application is based on the original issue state of the policy, regardless of the current residence of the owner.

HIV Informed Consent forms, if needed, are based on the proposed insured's residence state.

Military Personnel

It is our long-standing policy to support our men and women in all branches of the United States Armed Forces including proposed insureds in the active military and/or military reserve services, the National Guard and those who have received orders to trouble spots or areas of combat. The amount of coverage may be limited according to pay grade. Proposed insureds whose military duties include extra risks or involvement with some special forces units may be insurable only at higher premium rates or may be uninsurable.¹ The application and all underwriting requirements must be completed in the United States in accordance with normal age and amount guidelines. Our life insurance policies do not include any war restrictions or exclusion clauses.²

1. Applicants involved in the following military special forces may not be considered for insurance:

- Army Rangers
- Delta Force
- U. S. Army Special Forces
- Navy SEAL or Navy Special Warfare Development Group
- Marine Corps Force Reconnaissance
- Air Force Special Forces

2. These guidelines do not apply to private military contractors working in an active combat zone.
